5. Background:

a. General George C. Marshall, in a memorandum to President Roosevelt dated February 3, 1944, wrote: "The fact that the ground troops, Infantry in particular, lead miserable lives of extreme discomfort and are the ones who must close in personal combat with the enemy, makes the maintenance of their morale of great importance. The award of the Air Medal have had an adverse reaction on the ground troops, particularly the Infantry Riflemen who are now suffering the heaviest losses, air or ground, in the Army, and enduring the greatest hardships." The Air Medal had been adopted two years earlier to raise airmen's morale.

b. President Roosevelt authorized the Bronze Star Medal by Executive Order 9419 dated 4 February 1944, retroactive to 7 December 1941. This authorization was announced in War Department Bulletin No. 3, dated 10 February 1944. President Kennedy, per Executive Order 11046 dated 24 August 1962, to expand the authorization to include those serving with friendly forces, amended the Executive Order.

c. As a result of a study conducted in 1947, the policy was implemented that authorized the retroactive award of the Bronze Star Medal to soldiers who had received the Combat Infantryman Badge or the Combat Medical Badge during World War II. The basis for doing this was that the badges were awarded only to soldiers who had borne the hardships, which resulted in General Marshall's support of the Bronze Star Medal. Both badges required a recommendation by the commander and a citation in orders.

d. Order of precedence and wear of decorations is contained in Army Regulation 670-1. Policy for awards, approving authority, supply, and issue of decorations is contained in AR 600-8-22.
